Attn: Mr. John T. Collins, Deputy Director  
U. S. Nuclear Regulatory Commission  
c/o Three Mile Island Nuclear Station  
Middletown, Pennsylvania 17057

Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)  
Operating License No. DPR-73  
Docket No. 50-320  
Status of Proprietary Documents

Two proprietary documents relating to the EPICOR Radwaste System were forwarded to the NRC as follows:

- TLL 349, dated 7/16/80 - "EPICOR II Resin Irradiation Data"
- TLL 425, dated 9/08/80 - "Evaluation of EPICOR II Wastes"

Determination of NRC acceptance of these documents as being proprietary has not been received. It is requested the NRC provide a status of, and a date when this determination will be made. The status of TLL 349 is of particular interest since this letter has been in the NRC's possession for four (4) months.

Sincerely,

G. K. Hovey  
Vice-President and  
Director, TMI-2
