POOR ORIGINAL

James F. Ahearne, Chairman
US Nuclear Regulatory Commission
1717 H. Street, NW
Washington, DC 20555

Dear Sir: ReDocker 50-289sp, TMI Unit 1 Middletown, PA.

We urge that TMI - 1 be allowed to start without further delay.

We are concerned about the enormous amount of money that is being spent daily (\$ 500,00) to buy coal instead of using uranium at one plant alone. This is not only costly but a waste of our natural resources.

Nuclear power has been demonstrated to be safer than other fuel. There are many lives lost in coal mines. No lives have been lost or endangered by nuclear energy.

To talk about conserving our natural resource and then waste them is inconsistent.

We trust you will vote favorably to restart TMI - 1

Sincerely

Margaret Turner
