P.O. Box 130  
Richland, WA 99352-0130

Dear Mr. Volmer:

SUBJECT: ACCEPTANCE OF REVISION 24 TO ADVANCED NUCLEAR FUELS CORPORATION  
(ANF) QA TOPICAL REPORT

We have reviewed proposed Revision 24 to the topical report ANF-1A, "Quality Assurance Program for Nuclear Fuels," submitted with the letter of December 5, 1990, from R. H. Nelson of your staff. We discussed the proposed revision with Mr. Nelson by telephone on January 2, 1991, and it was agreed that Section 2.8 of the report would be revised to meet 10 CFR 50.55(f)(3). With this revision, we find the QA program acceptable in that it will continue to meet the requirements of 10 CFR 50, Appendix B.

Please submit the topical report, revised as noted above, including a copy of this letter, to the NRC in accordance with 10 CFR 50.4(b)(7)(ii). That is, submit one signed original of the revised report to the Nuclear Regulatory Commission, Document Control Desk, Washington, D.C. 20555. Contact the staff reviewer, Jack Spraul, on (301)492-1023 if there are any questions.

Sincerely,

Original signed by E. William Brach
