FLORIDA POWER CORPORATION, CRYSTAL RIVER UNIT NO. 3 - REQUEST FOR
ADDITIONAL INFORMATION

The second round review of the FSAR has been completed by the Structural Engineering Branch of the Containment Safety Group, and we find that additional information is required before we can complete our review. Material reviewed and evaluated to date has consisted of information provided through Amendment No. 17, dated April 10, 1972.

In summary, answers to five of the nine first round questions were found satisfactory. Two questions (5.1 and 5.4) require additional information to be submitted and two questions (5.5 and 5.6) were essentially not addressed.

We require the applicant's response to this request for additional information by September 20, 1972, to maintain the current schedule.

Lawrence C. Shao, Chief
Structural Engineering Branch
