Mr. Frank W. Karas
Division of Reactor Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

Re: Docket 50-302

Dear Mr. Karas:

Reference is made to our conversation of today regarding correspondence between the Division of Reactor Licensing and the Florida Power Corporation. This is to confirm that after the application for a construction permit made by Florida Power Corporation essentially the first paper filed in Docket 50-302 was a request by the Florida Power Corporation that I be sent a copy of all communications. I continue to be the Washington attorney of record for the Florida Power Corporation.

This is to confirm that the Florida Power Corporation several years ago advised the AEC that Mr. Dunn was no longer Vice President and General Counsel of the Company. Instead, the Vice President and General Counsel is Mr. Stanley Brandimore of the same address. Also, Mr. Joel Rodgers is now an Assistant Vice President of the Florida Power Corporation.

I appreciate your taking time out of your busy schedule to personally arrange to have a copy of the letter from Dr. Morris to Mr. Rodgers delivered to me. If there are ever any questions, please do not hesitate to call me or my associates in this office. Naturally Florida Power Corporation is pleased to be among the first to receive a determination by the Division of Reactor Licensing that the construction of its nuclear power project at Crystal River should not be suspended.

Sincerely yours,

Roy B. Snapp

cc: Mr. A. P. Perez, President, Florida Power Corporation
Stanley Brandimore, Esquire, Vice President & General Counsel
Mr. Joel Rodgers, Assistant Vice President
