Gentlemen:

We have received a copy of your application dated September 30, 1980, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. The application proposed Peach Bottom Unit Nos. 2 and 3 Technical Specification changes for (1) expanding the Maximum Average Planar Linear Heat Generation Rate (MAPLHGR) limits and (2) revising the Reactor Protection System (RPS) response time from 100 milliseconds to 50 milliseconds. Your application was accompanied by a Class III fee of \$4,000 for Unit 2 and a Class I duplicate fee of \$400 for Unit 3.

Based on information provided by the ONRR staff as a result of a preliminary review of your proposed changes, it has been determined that these changes involve consideration of two separate safety issues. As such, an additional Class III fee of \$4,000 for Unit 2 and additional duplicate fee of \$400 for Unit 3 are required. It is requested that your Company remit the sum of \$4,400 to this office. If the final review of your application by the ONRR staff reveals that these fees are incorrect, an adjustment will be made.

Sincerely,

Reba M. Diggs  
Facilities Program Coordinator
