FREEDOM OF INFORMATION
ACT REQUEST

FOIA-80-520
REC'D 10-20-80

Re: FOIA request

Folks,

I am respectfully requesting the following information pursuant to 5 United States Codes, Section 552, the Freedom of Information Act.

1. The most recent estimate by Florida Power Corporation on the decommissioning costs for the Crystal River #3 Nuclear Power Plant. This information is not in the Crystal River Public Document Room.
2. The most recent estimate by the N.R.C. of the costs of decommissioning the Crystal River Nuclear Power Plant.
3. A list of date, amount and primary radioactive content of all unplanned radioactive gas releases from Crystal River #3 since the plant went on line in 1977.
4. A copy of the updated resampling and also safety analysis for Crystal River #3 in relation to Strontium 90 levels in green leafy vegetable samples for a Licensee Event Report filed in 8-8-80. The event occurred on 1-19-80. The event year was 80, the sequential report no. is 0-28, the occurrence code is 04, and report type is T. The docket number is 050-0303.
5. An analysis of the reason that between Oct. 1977 and December 1977 six nuclear power plants in the Eastern U.S. (Fitzpatrick, Nine Mile Point, Salem 1, Arkansas 1, Beaver Valley 1, and Crystal River 3) reported high radioactive Iodine-131 readings in environmental air samples in their licensee event reports and ascribed them to a Chinese atmospheric nuclear test, while other nuclear power plants on the east coast and southern states filed no such reports.

Pursuant to the provisions of the Freedom of Information Act I respectfully request that I receive a reply within ten working days. Since this request is in the public interest, I also request a fee waiver.

Sincerely,

Steven E. Dwinell
