

OFFICE OF THE
CHAIRMAN

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

October 23, 1980

Ms. Jean Kohr
150 East Chestnut Street
Lancaster, Pennsylvania 17602

Dear Ms. Kohr:

It is my pleasure to provide you with this letter of appointment to the Advisory Panel for the Decontamination of the Three Mile Island, Unit 2. Your agreement to serve is appreciated.

The Commission has established this panel of twelve members, under the Chairmanship of Mr. John E. Minnich, Chairman, Dauphin County Commission, to ensure a broad representation of views on major cleanup activities at TMI-2. The list of members is attached for your information.

The role of the TMI-2 Advisory Panel is to consult with, and provide advice to, the Nuclear Regulatory Commission on major activities required to accomplish expeditious and safe cleanup of the TMI-2 facility. Decisions on necessary cleanup actions will remain with the Commission and its staff. The NRC Advisory Committee on Reactor Safeguards (ACRS) will provide technical assistance, as necessary, relating to the decontamination of TMI-2 upon reasonable requests of the panel. Such requests should be directed to Mr. Raymond Fraley, Executive Director, ACRS.

The primary NRC staff contact with the Panel will be Dr. William D. Travers of the TMI Program Office. He may be reached at (301) 492-7811. The provisions of the Federal Advisory Committee Act (80 Stat. 770) will apply, and Dr. Travers, (or his designee) will serve as the designated government official.

The Commission intends to call for meetings with the panel at least twice each year. Additional meetings may be called if two-thirds of the panel members agree and the Commission and the public are notified. The NRC TMI Program Office Staff will be available to brief the panel on the recently issued draft Programmatic Environmental Impact Statement for TMI-2 Decontamination (PEIS). A copy of the draft PEIS and another document which answers questions relating to the cleanup are attached for your information.
