Samuel J. Chilk
Secretary, Nuclear Regulatory Commission
Washington, D.C. 20555

Attn: Docketing and Service Branch

Dear Sirs:

This is to strongly support the NRC's proposed rule change regarding disposal of liquid scintillation media and animal carcasses containing Hydrogen-3 and/or Carbon-14. I am Chairman of the Science Council of the American Association of Physicists in Medicine and our organization believes the proposed rule change will result in no increased hazard to the public and will result in significant savings to the biomedical community.

Sincerely,

Charles A. Kelsey, Ph.D.
Chief, Biomedical Physics
