DOCKET NUMBER **PR 2**
PROPOSED RULE **45 FR 66754**

Gentlemen:

In response to your Notice to NRC Licensees, Public Officials and Other Interested Citizens I wish to state my opinion regarding the assessing of fines for matters that previously required written letters of correction. I feel that the fines proposed are not necessary. A statement indicating how a matter of non-compliance will be corrected is sufficient.

Yours truly,

[Handwritten Signature]
B.E. Corada, M.D., Radiologist
Radiation Safety Officer
