Dear Mr. Schwencer:

In the Matter of the Application of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

My letter to you dated December 19, 1980, regarding NUREG-0737 erroneously stated that TVA would provide the design details of the post-accident sampling system at Sequoyah Nuclear Plant by January 1, 1981. TVA intends to provide you with the required design details for the post-accident sampling system at Sequoyah Nuclear Plant by January 1, 1982, in accordance with NUREG-0737. Since the Sequoyah unit 2 operating license is expected before January 1, 1982, we consider the January 1, 1982, submittal date applicable to both units.

If you have any questions, please get in touch with D. L. Lambert at FTS 857-2581.

Very truly yours,
