Docket No. 70-820

DEC 1 9

1981 JAN 8 PM 1 15
COMMUNICATIONS SECTION
GENERAL INVESTIGATIVE DIVISION
U.S. NUCLEAR REGULATORY COMMISSION

United Nuclear Corporation
ATTN: Mr. G. O. Amy
General Manager
UNC Recovery Systems
Wood River Junction, Rhode Island 02694

Gentlemen:

Subject: Shipment of Process Residues and Dry Equipment from Inside the
UNC Recovery Facility

This refers to my letter dated December 11, 1980, on the above subject.

As indicated in the above referenced letter, on December 10, 11, 12 and 15, 1980, an NRC Region I inspector examined your activities concerning the packaging of 61 drums and 16 wooden boxes of non-lagoon waste scheduled for shipment and burial at the Barnwell, South Carolina burial site during December 1980. The inspector verified by observing your activities, inspecting the contents of selected packages, and observing the reclosure of the packages that the packages contained no liquid waste and the packages were suitable for shipment and burial. On the basis of this inspection, we consider these 61 drums and 16 wooden boxes only, to be acceptable for shipment and burial at the Barnwell, South Carolina burial site. The identification numbers of the drums and boxes considered to be acceptable are listed in the attachment to this letter.

Sincerely,

Boyce H. Grier
Director

Enclosure: As Stated
