SUBJECT: Revised Licensed Operator  
Requalification Program

Dear Mr. Collins:

The attached revision of the Fort St. Vrain, Unit No. 1, Licensed Operator Requalification Program dated December 23, 1980, is hereby submitted for your approval.

The major revisions contained are summarized in Attachment 1.

This revision incorporates the additional TMI requirements of NUREG 0660 and clarification of NUREG 0737. As of January 1, 1981, this program is in effect for our Licensed Operator Training. Any questions about its content should be referred to Mr. Ray Wadas, Training Supervisor, telephone (303) 785-2223, extension 327.

Since these changes to the requalification program are essentially due to NUREG 0737 requirements, we believe they are exempt from fee submittal required by 10CFR. 70.

Very truly yours,
