Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-2)
Operating License No. DPR-73
Docket No. 50-320
Liner Module Sump Contamination

In December, 1980, we advised you we would endeavor to submit to you an interim report on our findings concerning the slight contamination we have discerned in the Liner Storage Modules by January 15, 1981.

We now anticipate that this report will be forwarded to you January 23, 1981. The delay stems from the need to transfer personnel to efforts related to the shipment of EPICOR Liner PF2 to Department of Energy for their examination.

Sincerely,

G. K. Hovey
Vice President and
Director, TMI-2
