Mrs. Toni Brink

Dear Mrs. Brink:

Thank you for your letter of December 17, 1980.

As you pointed out, there should be an X under the column "Goats" on line "hair fell out--raw sores" in Table 2.5, page 9, of NUREG-0738. If future reprints or revisions are made to this report, a correction will be made. We appreciate your bringing this oversight to our attention.

Sincerely,

  
Bernard J. Snyder, Program Director

Office of Nuclear Reactor Regulation
