

DOCKET NUMBER 70-00, 00, 70, 150
PROPOSED RULE (10 CFR 70.074)
SUBMITTED 11/10/80

Dec. 11, 1980

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington D.C. 20555

002524

Dear Sir,

I strongly object to the exemption of licensing requirements for contaminated alloys and oppose the combining of radioactive waste metals with other metals to be used in consumer products.

Public hearings should be held on this matter. The disposal of radioactive waste through such uncontrolled measures assures our children an uncertain future at best.

sincerely,

Helen Cornwall
