

001795

DOCKET NUMBER PR-80, 32, 70, 150  
PROPOSED RULE (45 FR 70874)  
SMELTED ALLOYS

New York, Dec. 10, 1980

Secretary of the Commission  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555

Attention: Docketing and Service Branch

To whom it may concern:

I asked you to retain the regulations prohibiting possession, use and transfer of low-enriched uranium as, a contaminant in metals. All type of radiation is dangerous. I had developed skin cancer, and I know that we have enough contaminants in our atmosphere. We do not need products made from scrap metal to be used in our households.

Please write to me about the above matter.

Yours sincerely,

Zenaida Fernández  
25-65 135 St/  
Flushing, N.Y. 11354
