

Federal Register Notice

NUCLEAR REGULATORY COMMISSION  
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
SUBCOMMITTEE ON WASTE MANAGEMENT

Notice of Meeting

The ACRS Subcommittee on Waste Management will hold a meeting on Nov. 13-14, 1980, in Room 1046, 1717 H St., NW, Washington, DC. The Subcommittee will continue to obtain information to aid the full Committee in preparing a response to the NRC Commissioners' request for comments on proposed rulemaking on the storage and disposal of nuclear waste and the adequacy of the record (Waste Confidence Rulemaking PR-50-51), and to obtain information to aid in the preparation of the ACRS Annual Report to Congress on the NRC Reactor Safety Research efforts. Notice of this meeting was published October 24.

In accordance with the procedures outlined in the Federal Register on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance except for those sessions during which the Subcommittee finds it necessary to discuss the ACRS Annual Report to Congress on the NRC Reactor Safety Research Program and Budget. One or more closed sessions may be necessary to discuss such information. (SUNSHINE ACT EXEMPTION (9)(B)). To the extent practicable, these closed sessions will be held so as to minimize inconvenience to members of the public in attendance.

8102020 344

The agenda for subject meeting shall be as follows:

Thursday, November 13 and Friday, November 14, 1980

8:30 a.m. until the conclusion of business each day.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC Staff, their consultants, and other interested persons.

Further information about topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. John C. McKinley (telephone 202/634-3265) between 8:15 a.m. and 5:00 p.m., Eastern Time.

The ACRS is required by Section 5 of the 1978 NRC Authorization Act to review the NRC Reactor Safety Research Program and Budget and to report the results of the review to Congress. In order to perform this review, the ACRS must be able to engage in frank discussions with members of the NRC Staff and such discussions would not be possible if held in public sessions. I have determined, therefore, in accordance with Subsection 10(d) of the Federal Advisory Committee Act (Public Law 92-463), that, should such sessions be required, it is necessary to close portions of this meeting to prevent frustration of the above stated aspect of the ACRS' statutory responsibilities. The authority for such closure is 5 U.S.C. 552b(c)(9)(B).

Date

October 23, 1980

John C. Hoyle  
Advisory Committee  
Management Officer
