Dear Senator:

Enclosed, are copies of letters which we have sent to the NRC, of which I think the references and the ultimate implications of implementing these regulations to the letter of the law, will be a severe detriment to the smaller hospitals that are serving the rural communities.

It would be greatly appreciated if you could give this your immediate attention as these hearings have been held December 1st and action will be taken within the very immediate future by the NRC.

Thank you.

I am very respectfully yours,

Charles L. Abramson, M.D.  
Radiation Safety Officer
