Billingham, Massachusetts 02019

Dear Ms. Allard:

This is in reply to your letter of December 1, 1980, requesting information on nuclear power.

Enclosed is a booklet published by the Department of Energy in November 1979 on "Nuclear Power From Fission Reactors: An Introduction." I trust that this will serve your purpose.

A handwritten signature in cursive script, reading "Gary G. Zech".

Gary G. Zech, Chief
Technical Support Branch
Planning & Program Analysis Staff
Office of Nuclear Reactor Regulation

Told Thomelt May Concern,
I was recently given an assignment in geography. I am to write a report on nuclear power. The report is to be about the advantages and disadvantages in using the source, the history of its development, and use of the source of energy. I would very much appreciate it if you would send me all the free information you have on nuclear power. Thank you for your co-operation.

Diane Allard
