Transportation Certification Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

REFERENCE: Certificate of Compliance 5939

Dear Mr. MacDonald:

Certificate of Compliance No. 5939 for the G.E. Model 1500 shipping container expires on April 30, 1981. As you are aware, General Electric is preparing new evaluations for all of its shielded shipping containers. However, to permit continued shipment of the current restrictive allowable contents G.E. requests that the present Certificate of Compliance be extended to April 30, 1982. G.E. intends to complete its submittals for recertification of the former contents prior to the requested new expiration date.

A check for \$150.00 for the extension fee is enclosed.

Sincerely,

G. E. Cunningham
Sr. Licensing Engineer
