

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

FEB 18 1981

FCUP:RLS  
70-157  
SNM-180

The University of Texas  
College of Engineering  
ATTN: Dr. T. L. Bauer, Supervisor  
Nuclear Engineering Teaching Laboratory  
Austin, Texas 78712

Gentlemen:

Enclosed is Special Nuclear Material License No. SNM-180 as renewed. The license includes conditions that were discussed and agreed to by Dr. Bauer in a telecon with R. L. Stevenson of my staff on February 12, 1981. We are also enclosing a copy of the safety review issued in support of the license renewal.

You are hereby advised that any request for amendment of this license should be submitted in the form of replacement pages to your license application with the changes or new items clearly identified.

The license is renewed for a full 5-year term, expiring February 28, 1986.

Sincerely,

R. G. Page, Chief  
Uranium Fuel Licensing Branch  
Division of Fuel Cycle and  
Material Safety

Enclosures:

1. Special Nuclear Material License No. SNM-180
2. Review of License Renewal Application for SNM-180
