Dear Mr. O'Reilly:

OFFICE OF INSPECTION AND ENFORCEMENT BULLETIN 80-20 -RII:JPO 50-518,
-519, -520, -521, ~~-553~~, ~~-554~~ HARTSVILLE AND PHIPPS BEND NUCLEAR PLANTS

Our initial response to the subject bulletin, dated September 12, 1980, stated that TVA does not have any of the Westinghouse type W-2 switches in its Balance-of-Plant designs at Hartsville and Phipps Bend. The response also stated that we had requested information from General Electric on the STRIDE portion of these facilities. As yet, TVA has been unable to obtain any information from GE on the subject switches. We anticipate receiving and transmitting this information to you on or before June 15, 1981. If you have any questions, please call Jim Domer at FTS 857-2014.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
