Gentlemen:

This refers to the inspection conducted by our Resident Reactor Inspector, Mr. T. E. Vandell, during December 1980, of activities authorized by NRC Construction Permit No. CPPR-147 for the Wolf Creek facility, Unit No. 1, and to the discussion of our findings with Mr. M. E. Clark and other members of your staff during the inspection period.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selected examination of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of the inspection, no violations were identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If the report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.
