Mr. B. J. Youngblood, Chief
Licensing Branch One
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: LaSalle County Station Units 1 and 2
Security Plan Revision
NRC Docket Nos. 50-373/374

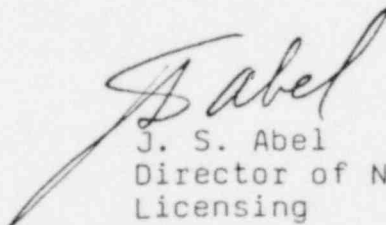

Dear Mr. Youngblood:

This letter transmits five (5) copies of Revision 9 of the LaSalle County Station Security Plan. The revisions incorporated into this submittal reflect items discussed during the conference call meeting of October 14, 1980, the site visit of November 18, 19, and 20, 1980, and the meeting held in Washington, DC, on January 13, 1981.

One of the items discussed during the review of this plan concerned the adequacy of CCTV coverage of the perimeter. We have not received an approved design for the modifications which we intend to make to the existing system. Therefore, Figure 8-1 will be revised at a later date.

The enclosed security plan revisions contain proprietary information and should be withheld from public disclosure pursuant to Title 10, Code of Federal Regulations, Part 2.790.

Sincerely,

J. S. Abel
Director of Nuclear
Licensing
