2) Letter WC 93-0035 dated February 25, 1993 from
O. L. Maynard, WCNOG, to USNRC
Subject: Docket No. 50-482: Revision 23 to the Wolf Creek
Generating Station Security Plan

Gentlemen:

This letter provides notification of changes to the Wolf Creek Generating Station (WCGS) Physical Security Plan, Safeguards Contingency Plan, and Security Training and Qualification Plan pursuant to 10 CFR 50.54(p)(2). The review of these changes concludes that they do not decrease the safeguards effectiveness of these Plans. The Attachment to this letter provides a description of each change that will be incorporated into Revision 23 upon NRC approval of Revision 22 to the Plans. The Attachment contains Safeguards Information in accordance with 10 CFR 73.21 and therefore should be withheld from public disclosure. This letter when separated from the Attachment does not contain Safeguards Information and should be handled and controlled.

WCNOG received Reference 1, Amendment 58 to WCGS Operating License, which reflected organization and title changes. These changes have been incorporated into Wolf Creek Nuclear Operating Corporation (WCNOG) policies and procedures, and will be incorporated into Revision 23 of the Plans.

Reference 2 submitted Revision 22 to these plans and is presently being reviewed by NRC Region IV and NRP staff for 10 CFR 50.54(p) applicability. Upon approval of Revision 22 by NRC staff, Revision 23 to these plans will be submitted and will include the aforementioned changes. This matter was discussed with W. D. Johnson, Section Chief, on April 21, 1993.
