Louisiana Energy Services, LLC
NRC Docket No. 70-3103

Subject: Revision to Bi-monthly and Annual Special Nuclear Material (SNM) and Source Material (SM) Physical Inventory Report

Reference: Letter LES-19-160-NRC, Bi-monthly and Annual Special Nuclear Material (SNM) and Source Material (SM) Physical Inventory Report, dated November 14, 2019

In the Reference letter, Louisiana Energy Services, LLC, dba URENCO USA (UUSA), submitted NRC Form 327s for the bi-monthly period July 24, 2019 through September 18, 2019, and for the annual period January 16, 2019 through September 18, 2019.

UUSA has discovered that a material transaction within the inventory period was omitted from the Reference Physical Inventory report in error. This error has since been corrected and entered into the UUSA corrective action program (EV 135143). Therefore, UUSA herewith submits a revised version of the Physical Inventory Reports which include the previously missing transaction. The information in Enclosures 1 & 2 is intended to replace the original submittal in the Reference letter.

The enclosures contain information concerning UUSA's material control and accounting program for special nuclear material. As such, UUSA requests that the enclosures be withheld from public disclosure pursuant to 10 CFR 2.390(d)(1).

Should there be any questions concerning this submittal, please contact Scott Diggs, Acting Licensing and Performance Assessment Manager, at 575.394.6203.

Respectfully,

A handwritten signature in black ink, appearing to read 'Stephen Cowne', is written over a printed name.

Stephen Cowne
Chief Nuclear Officer and Compliance Manager

Enclosures: 1. Bi-Monthly SNM and SM Inventory for the period July 24, 2019 through September 18, 2019

2. Annual SNM and SM Inventory for the period January 16, 2019 through September 18, 2019
