U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Commissioners:

I was extremely disappointed to find that a tied vote goes against the people. I am specifically referring to your 2 to 2 decision to ignore psychological stress as a contention in the Restart Hearings.

This, gentlemen, only reinforces my feeling that your goal is not to regulate, but to promote the nuclear power industry. I understand that by denying us these legal considerations, you also accept personally the grave consequences of your actions. The "psychological blood" of the people in central Pennsylvania is clearly on your hands.

Sincerely,

Timothy J. Lyng
