NRC IE Bulletin 79-01B  
Docket No. 50-348

Mr. James P. O'Reilly  
U. S. Nuclear Regulatory Commission  
Region II, Suite 3100  
101 Marietta Street, N.W.  
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

References: Alabama Power Company's Response and  
Revised Responses to IEB 79-01B Dated  
April 4, 1980; July 30, 1980;  
October 30, 1980; November 12, 1980;  
and February 2, 1981

We informed your office by telephone on February 6, 1980 that we had inadvertently submitted information in the referenced responses that is considered Westinghouse proprietary. We are presently reviewing our submittals to determine the number of component worksheets which contain this information. In the meantime, we request that you withdraw the above referenced response submittals from the Public Document Room pending a detailed review of the material by Westinghouse. In addition, we ask that actions be taken to minimize further distribution of the submittals outside the NRC.

Revised component worksheets for the affected components are scheduled to be submitted by April 1, 1981. The technical content of our response submittals and the commitments made by Alabama Power Company will not be modified as a result of this action.

Should you have any questions regarding this matter, please advise.

Yours very truly,

*F. L. Clayton, Jr.*
