Mr. Ivan Smith  
ASLB  
25 N. Court Street  
Harrisburg, PA 17101

Dear Mr. Smith:

I recall giving a "limited appearance" in early Winter 1979 to your ASLB. I felt you were patient and answered questions in a very positive fashion. It was my thought that you indeed had a compassionate feeling for what many of the local citizens like myself are living with.

The March 5, 1981 "limited appearances" were not completed because of the 10 P.M. need to vacate the building. As a result, more than 1/3 of those scheduled were inconvenienced and not heard on a dreary March evening.

Many of the citizens present were there to listen, not make presentations. Many did not come because local news sources said the meeting would be held March 11, now cancelled.

I was alarmed at the "recess" you took when State Representative Bruce Smith, R-Newberrytown, addressed your board. He was elected by the people---you were not, therefore, you should have given him even more consideration during the presentation.

As a result, I feel you should address the following:

1. hold 1, possibly 2 "limited appearances" in April
2. advertise these two weeks in advance to allow individuals to retain babysitters, arrange transportation or possibly change working hours
3. absolutely hold sessions in the evening
4. offer Representative Smith an apology and the opportunity to address the ASLB

It was truly chilling to see you and the board walk away from a State Legislator: I certainly expect this type of pompous attitude from NRC staff and the utility -- but most certainly not from an ASLB that is supposed to be sensitive to human concerns among the masses of technical information.

Your considerations and reply to my requests would be greatly appreciated.

Sincerely,  
*Donald E. Hossler*  
Donald E. Hossler
