In the Matter of
Consumers Power Company
(Midland Plant, Units 1 and 2)
Docket Nos. 50-329 and 50-330

Dear Mr. Chilk:

On March 8, 1978 the NRC Staff forwarded a memorandum from Roger S. Boyd, Director of Project Management dated March 7, 1978 concerning differing staff analyses of estimated construction completion dates for Midland Unit 2. A detailed plant specific analysis was undertaken and the results were to have been forwarded to you and the parties. That analysis was completed and documented in a "Summary of March 21-22, 1978 meeting and site visit" dated March 27, 1978. The analysis was distributed to the parties in this proceeding.

As a result of a recent FOIA request for the summary it has come to our attention that the Commission was not listed on the distribution list as a recipient of the March 27 summary. That summary is enclosed in the event that the Commission did not receive it earlier.

Sincerely,

James R. Tourtellotte
Assistant Chief Hearing Counsel
