

NEGATIVE DECLARATION  
SUPPORTING AMENDMENTS NO. 2 TO CPPR-97 AND CPPR-98  
RELATING TO CHANGE IN OWNERSHIP INTERESTS  
SAN ONOFRE NUCLEAR GENERATING STATION, UNITS 2 AND 3  
SOUTHERN CALIFORNIA EDISON COMPANY, ET AL.  
DOCKET NOS. 50-361 AND 50-362

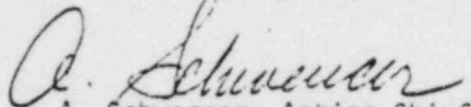

The U. S. Nuclear Regulatory Commission (the Commission) has reviewed the request for amendments to Construction Permits CPPR-97 and CPPR-98 relating to changes in ownership interests in the San Onofre Nuclear Generating Station, Units 2 and 3, located in San Diego County, California. The construction permits are issued to the Southern California Edison Company and San Diego Gas and Electric Company. The amendments would include the City of Riverside and the City of Anaheim as co-owners of the facility with the present owners.

In accordance with 10 CFR Part 51, the Commission's Division of Licensing has prepared an environmental impact appraisal (EIA) for the amendment. The Commission has concluded that an environmental impact statement for this action is not warranted, because there will be no adverse environmental impacts affecting the quality of the human environment attributable to the proposed action that would be in addition to those impacts evaluated in the Commission's Final Environmental Statement-Construction Permit Stage for San Onofre Generating Station, Units 2 and 3, issued in March 1973. A negative declaration is, therefore, appropriate.

The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C.,

and at the local public document room located at the Mission Viejo Branch Library, 24851 Chrisanta Drive, Mission Viejo, California. A copy of the EIA may be obtained upon request, addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 5th day of August, 1980.

  
A. Schwencer, Acting Chief  
Licensing Branch No. 3  
Division of Licensing
