Subject: Application for an Export License of Special Nuclear  
Material - Shimane Nuclear Power Station Unit No. 1  
Power Reactor - Japan

Gentlemen/Madams:

Pursuant to 10CFR110-5 we hereby apply for a license to export to the Shimane Nuclear Power Station Unit No. 1 of The Chugoku Electric Power Company the special nuclear material: enriched uranium dioxide powder as described on the attached Form NRC-7 dated August 7, 1980.

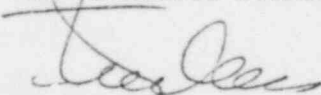

As shown on the Form NRC-7, the material is firstly to be destined to Japan Nuclear Fuel Company for fabrication into fuel assemblies. The UF6-UO2 conversion is scheduled to be made by General Electric Company in the U.S. before transportation.

The material is to be owned at the time of delivery at DOE diffusion plant by The Chugoku Electric Power Company and to be used for their 9th Reload fuels of the above referenced reactor.

Thank you very much for your kind attention to this application.

Very truly yours,
