cab-question12:

cab-question13: This needs a wide array of improvement.

cab-question14: Better information. Better dc process arising from increased input from a variety of interests.

cab-question15: None

cab-question16: Nrc needs to increase expectations of licensee communication with the general public. Needs to increase communication with the public about recommendations of the cab and responses actions by the licensee.

nocab-question1: Hypothetical question

nocab-question2: None

nocab-question3: This needs large amounts of improvement. The licensee, pge, was left to do all the communication. It only communicated to the cab. The cabs role to communicate broadly was not well defined.

nocab-question4: There would be no advantage to anyone but the utility. The utility would be further insulated from the public. The public makes the dc process better.

nocab-question5: The disadvantages are thst the public has no window of communication. The disadvantages are that the public would have no window of input.
