Mrs. Marjorie M. Brenner
4 Eaton Way
Plymouth, MA 02360

Dear Mrs. Brenner:

In your April 8, 1980 letter you expressed concern about drunkenness at the Pilgrim Nuclear Power Plant alleged in newspaper articles which you enclosed.

In response to your concerns I advised by letter, dated May 1, 1980, that the NRC was investigating similar allegations contained in newspaper articles. I also advised that you would be informed of the results of the investigation. The investigation has been completed and a report, dated June 17, 1980, of the investigation is enclosed.

Because the NRC has great concern for safe operation of nuclear power plants, I am pleased to report that the investigation found none of the allegations presented in the newspaper articles to be substantiated and that no apparent items of non-compliance with the NRC regulatory requirements were identified.

Sincerely,

18/
Victor Stello, Jr.
Director
Office of Inspection
and Enforcement

Enclosure:
Investigation No. 50-293/80-19
dtd. 6/17/80
