NUCLEAR REGULATORY COMMISSION

In the Matter of

METROPOLITAN EDISON COMPANY, et al.
(Three Mile Island Nuclear Generating
Station, Unit 2)

Docket Number 50-320-OLA

REQUEST OF ECNP INTERVENORS TO NRC FOR THE PROVISION OF TRANSCRIPTS

Pursuant to 45 Federal Register 49535, "Procedural Assistance in Adjudicatory Licensing Proceedings," dated July 25, 1980, The Environmental Coalition on Nuclear Power requests that the Nuclear Regulatory Commission provide these Intervenor with a free copy of the transcripts of the Prehearing Conference and all future Prehearing Conferences and Evidentiary Hearings, as well as subsequent appeal hearings that may be held in regard to the above-captioned matter. It is our understanding that certain documents that may be required of intervenors later in this proceeding will be copied and distributed by the Commission free of charge.

ECNP commends the Commission for this improvement in public participation; we urge that the NRC next return to its past practice of providing Intervenor with copies of documents requested on discovery. Without adequate access to those materials, public participation in NRC proceedings remains a shameful farce and travesty of due process. The deposit of a copy of an NRC document in the Public Documents Room in Washington, D.C., in no way makes that document available to Intervenor.

Dated this 22 day
of August, 1980

Respectfully submitted,

Judith H. Johnsrud
