Docket No 50-289
(Restart)

Intervenor Lewis's Motion for Receipt of a Free Copy of the
Restart Hearing Transcript.

Pursuant to 10 CRF 2.750(c), Intervenor Lewis requests that the Board provide him with a free transcript of the restart hearing transcript "as it is made available to the NRC staff."

Intervenor Lewis also wishes to petition the Board to have his status of 'discretionary' intervenor changed to a full intervenor.

Argument: UCS's win concerning the inability of the Staff to draw an adequate line between 'credible' and 'incredible' accidents impacts upon the acceptability of my interest. My interest was based on the fact that NRC/AEC documents suggest that an accident at a nuclear power plant could affect and produce deaths 100 miles away. This type of accident was deemed 'incredible' by the staff. Therefore, my interest was not deemed sufficient.

However, with Ms Weiss's "win", this accident can no longer be deemed 'incredible' except in the minds of the staff.

Therefore, my interest must be reconsidered in the light of this "new ruling" from the Board on 8-13-80.

I plan to stay with only the Lewis Contention at this time. However, I may petition on new contentions when and if new material warrants.

Hopefully submitted, *Mar. Lewis*
