Gentlemen:

Thank you for your letters of July 10 and July 17, 1980, informing us of steps you have taken to correct the item of deviation concerning activities under NRC Construction Permit Nos. CPPR-83 and CPPR-84 brought to your attention in our letter of June 17, 1980.

The actions you have proposed for Items 1 and 4 appear satisfactory, but the actions proposed for the remaining items do not appear to comply with previous commitments to the Commission and are not consistent with the applicable National Fire Protection Association Standards and Codes. Therefore, your comments have been forwarded to our Office of Nuclear Reactor Regulations for further evaluation. These items will remain outstanding pending the results of this evaluation.

We appreciate your cooperation with us.

Sincerely,

C. E. Murphy, Chief
Reactor Construction and Engineering
Support Branch
