Gentlemen:

With reference to your letter dated January 18, 1973 relative to an inspection conducted by Mr. Oberg at Yankee Rowe on December 11-15, 1972, Yankee Atomic Electric Company offers the following reply to Item No. 2 of the violation:

1. The brass fittings were removed from the low pressure safety injection pump on December 19, 1972 and shall be replaced with fittings that comply with ANSI B31.7.
2. A plant management directive has been issued to re-establish the requirements for conformance with applicable codes, regulatory requirements and quality assurance requirements.

We trust that this information is complete and satisfactory; however should you desire additional information feel free to contact us.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY
