Date

A. Date and Manner AEC was Informed:

December 4, 1972, by telephone call from the licensee.

B. Description of Particular Event or Circumstance:

The licensee informed RO, Region I, of his proposed action with regard to the problem experienced with the control rod shrouds. (RO Inquiry Report No. 50-29/72-10Q)

The decision has been made to replace the 32 control rod shroud tubes with a new unitized package bolted to the lower core support plate. This will necessitate the disassembly, removal, and disposal of the existing structure. The estimated time of completion of the modification is the end of April, 1973.

C. Action by Licensee:

The licensee has contracted with Westinghouse for the design and construction of the shroud tube package.
