Docket No. 50-29

Yankee Atomic Electric Company
ATTN: Mr. G. Carl Andognini, Assistant to
the Vice President
20 Turnpike Road
Westboro, Massachusetts 01581

Gentlemen:

Your letter dated November 6, 1974, informed us that you need an extension of the date for submittal of proposed technical specifications to implement Regulatory Guide 1.83, "Inservice Inspection of Pressurized Water Reactor Steam Generator Tubes", until January 12, 1975.

Your next scheduled refueling/inservice inspection outage, commencing about October 15, 1975, will allow you to make timely preparations for the baseline steam generator tube inspection. Therefore, the time extension is acceptable.

Sincerely,

Original signed by:
Karl R. Goller
