November 25, 1980

Mr. John Ahearne, Chairman
U.S. Nuclear Regulatory Commission
1717 H Street, NW
Washington, DC 20555

Dear Mr. Ahearne:

DOCKET 50-289SP
TMI - UNIT 1

On behalf of our 1,000 members and in the interest of common sense, we ask that Unit 1 at Three Mile Island be granted permission to restart.

This unit was not damaged, has operated satisfactorily, has had no reason to remain shut down.

It is unthinkable that we should continue to import oil or to pollute the landscape with coal because the Commission has not yet permitted this unit to start up.

Very truly yours,

R. M. Campbell
President
