Mr. R. J. Gary  
Executive Vice President and  
General Manager  
Texas Utilities Generating Station  
Dallas, Texas 75201

Dear Mr. Gary:

SUBJECT: INSERVICE INSPECTION OF PRESSURE ISOLATION VALVES  
(Comanche Peak Steam Generating Station, Unit Nos.  
1 and 2)

As a result of our review of your application regarding inservice inspection of pressure isolation valves, we require the following information:

Provide a list of pressure isolation valves included in your testing program with four (4) sets of piping and instrumentation diagrams which clearly show the reactor coolant system isolation valves. Also, discuss in detail how your leak testing program conforms to the staff position (see enclosure).

It is requested that this information be provided within 15 days of receipt of this letter. This position has previously been provided to your staff.

Sincerely,
