Licensee Event Report 80-082/03L-1

Docket Number 50-293
License DPR-35

Gentlemen:

The attached Licensee Event Report 80-082/03L-1, "480V Bus-B15", is hereby submitted in accordance with the requirements of Pilgrim Nuclear Power Station Technical Specification 6.9.B.2.b.

Revision zero of this LER dealt with the operation of Valve 1001-34B. Management review indicated that automatic operation of MO 1001-34B was not impaired therefore this report was superfluous. This LER on operation of 480V BUS-B15 utilizes the original reports sequential designation and replaces the original report.

If there are any questions on this subject, please contact us.

Respectfully submitted,

R. D. Machon
Nuclear Operations Manager
Pilgrim Station
