Mr. Earl A. Borgmann  
Vice President - Engineering  
Cincinnati Gas & Electric Company  
P. O. Box 960  
Cincinnati, Ohio 45201

Dear Mr. Borgmann:

SUBJECT: NRC REVIEW SCHEDULAR REQUIREMENTS FOR SPECIAL LOW POWER TEST PROGRAM  
AND EMERGENCY PROCEDURES

To accomplish timely review of your application, it is necessary that the following schedular requirements be met. These requirements specifically relate to NRC review of your Special Low Power Test Program and Emergency Procedures for selected transients and accidents. The following lead times must be met if our evaluations are to be completed on a schedule consistent with your schedule for performing tests and proceeding with the power ascension program above 5% of full power.

1. Procedures for conducting the Special Low Power Test Program must be submitted at least 4 weeks prior to authorization to perform the tests.
2. Emergency procedures prepared in accordance with the applicable guidelines must be submitted at least seven weeks prior to completing our review; procedures walk-throughs in a simulator and in your control room must be completed at least 2 weeks prior to issuance of a full power operating license.
3. The results of the Special Low Power Test Program must be submitted for NRC review 2 weeks prior to proceeding above 5% of full power.

Implicit in the above requirements is the assumption that NRC requests for any additional information on the above matters will be answered in 1 - 1 1/2 weeks.

Sincerely,

Robert L. Tedesco  
Assistant Director for Licensing  
Division of Licensing
