Dear Dr. Thompson:

As you requested of Richard Codell by telephone on November 19, 1980, I am herewith providing a copy of his assessment of the groundwater liquid pathway analysis for leakage of water from the TMI Unit 2 containment. Dr. Codell's final analysis was completed following preparation of the Draft Programmatic Environmental Impact Statement and it contains results which are somewhat different from those shown on page 6-19 of the draft. Our final statement will be modified accordingly.

Sincerely,

A handwritten signature in cursive script, reading "Bernard J. Snyder".
