DOCKET NUMBER
PROPOSED RULE

PR 20
45FR67018
(207)

314 Wright Nuclear Structure
Laboratory, West
260 Whitney Avenue
New Haven, Connecticut 06520
Area Code 203-436-2936

November 21, 1980

Secretary of the Commission
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Docketing and Service Branch

Subject: Proposed Rule 10 CFR Part 20: 301, 303, 305, 306

Gentlemen:

I write in support of Proposed Rule change involving 10 CFR Part 20: 301, 303, 305 and 306 concerning the disposal of small quantities of H-3 and C-14, which was published in the Federal Register, October 8, 1980. In addition, I feel it is important for the Nuclear Regulatory Commission to extend this approach to additional isotopes used in bio-medical research institutions. For example, similar levels should be established for isotope labeled microspheres used in circulatory research in animals.

I urge the speedy adoption of the proposed rule.

Very truly yours,

George R. Holeman
George R. Holeman, Director
