Plant Special Nuclear Material	:	
License)	:	

RESPONSE OF THE ALABAMA DEPARTMENT OF PUBLIC HEALTH
TO ATOMIC SAFETY AND LICENSING BOARD MEMORANDUM AND
ORDER DATED SEPTEMBER 11, 1980, AND
ORDER DATED DECEMBER 11, 1980.

Pursuant to the September 11, 1980, and December 11, 1980, orders of the Atomic Safety and Licensing Board, the following are areas in which the State of Alabama specifically desire to participate:

1. The general area of radioactive material waste discharges to the air, water, or land. Specifically, procedures or laboratory results cited or proposed in the preparation of the application and the environmental report, the associated laboratory quality control procedures, and the interpretation of the data.
2. The emergency plan/procedures on-site as they may affect releases to the off-site areas.
3. With regard to the interveners, any contention accepted by the Board relating to "atomic like" explosions will be of interest to the State of Alabama.

50/1

4. Proposed operating procedures, uses, design, or equipment affecting the radiation safety of the plant. Specifically in the application, Sections 3, 4, 5, 6, 9, 10, 11, 13, 15, 17, 18, 20, and 21. Similar information is contained in Sections 3, 4, 5, and 6, and Appendices (and D of the Westinghouse Environmental Report).

5. The State will be interested in the comparative sections as outlined in 1-4 above of the staff's environmental impact statement, plant safety analysis, and any proposed conditions when they are issued.

The State is not taking a position on any of these issues but does propose to participate in any testimony presented by the parties, if a hearing is conducted.

Respectfully submitted,

Aubrey V. Godwin
Representing Ira L. Myers, M.D.

Dated at Montgomery, Alabama,
this 30th Day of January, 1981.
