James F. Ahearne, Chairman
US Nuclear Regulatory Commission
1717 H Street, NW
Washington, D. C. 2055

Dear Mr. Ahearne:

I feel the United States must develop and use whatever is necessary to free us from dependence upon foreign oil interests.

Coal and nuclear power is available to us, and we should use it.

TMI needs to be restarted as soon as possible. I refer to Docket 50-289SP, TMI Unit 1.

Yours very truly,

Mrs. Garrett J. Troff
