Docket No. 50-271

Mr. Robert L. Smith  
Licensing Engineer  
Vermont Yankee Nuclear Power  
Corporation  
1671 Worcester Road  
Framingham, Massachusetts 01701

Dear Mr. Smith:

By letter dated December 1, 1980 you described the results of your core spray sparger inspection. You indicated that a loose parts monitoring program would be established prior to startup following the 1980 refueling outage, and that after one year of data collection the program would be reevaluated.

Would you please report to us your evaluation of the loose parts monitoring program at Vermont Yankee by January 31, 1982.

Sincerely,

A handwritten signature in cursive script that reads "Tom Ippolito".
